

# EQUIP YOUR LAB WITH THE MOST POWERFUL DATA RECOVERY SOLUTIONS

## 1 PC-3000 Express RAID System

Professional system for data recovery labs with a big flow of cases.

**Aimed at:** SATA/PATA HDDs (all generations, 500 MB – 8 TB), SATA RAID, Hybrid RAID (if paired with the PC-3000 SAS System)

## 2 PC-3000 SAS RAID System

The most sophisticated product to solve different issues with SAS drives.

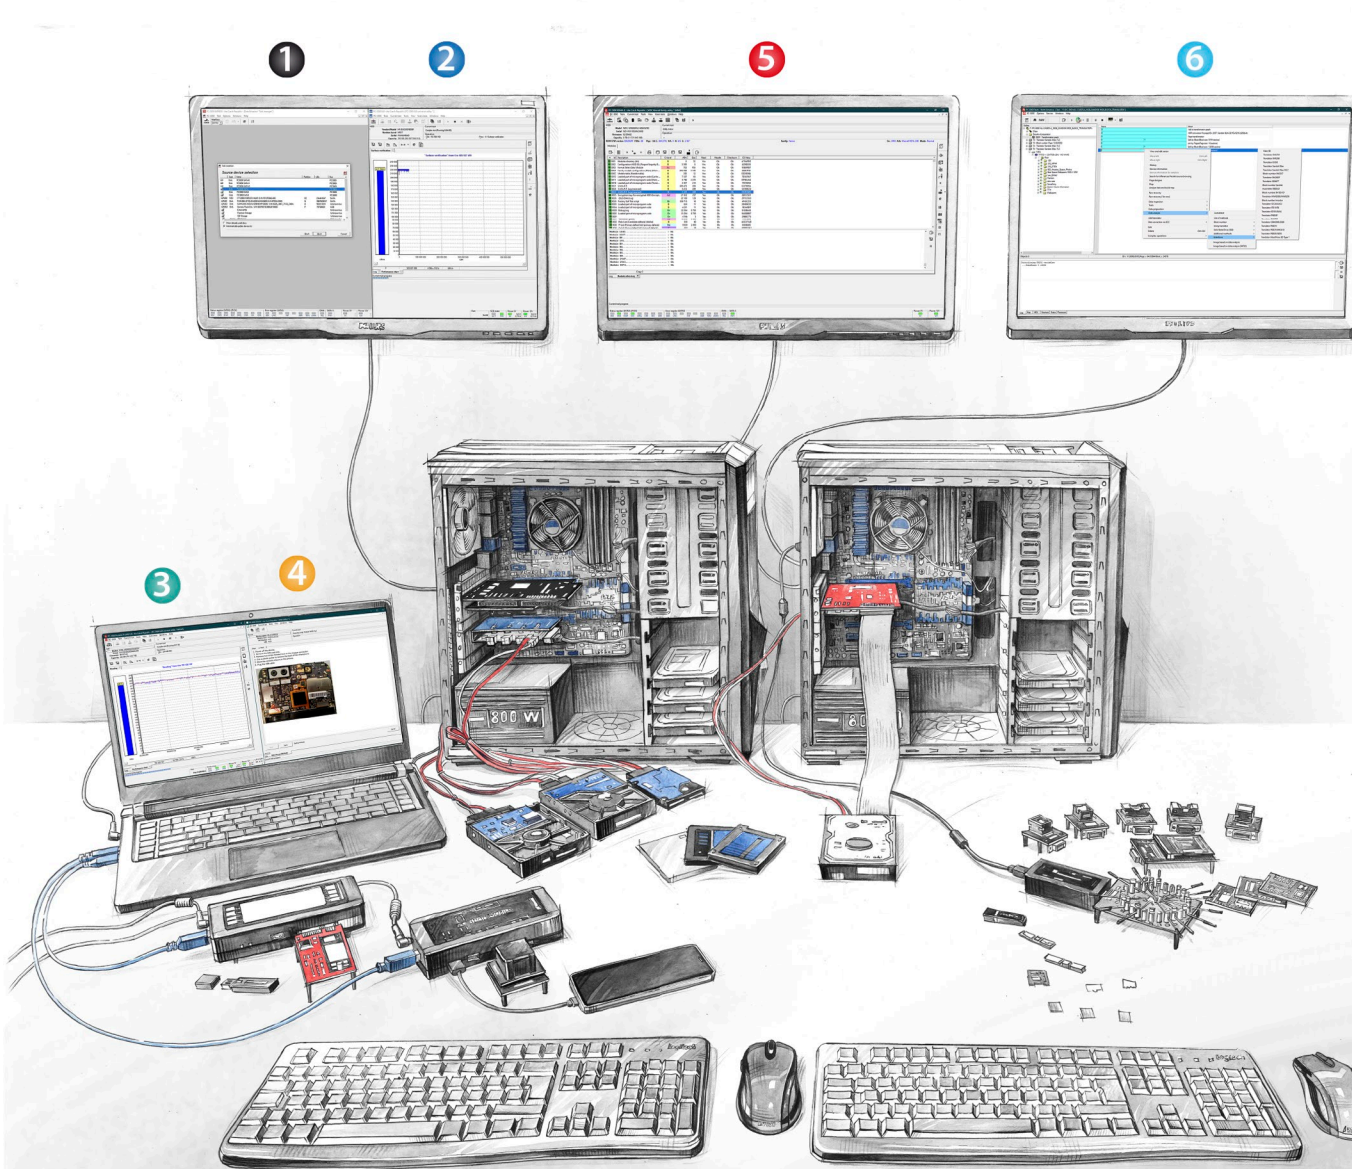

**Aimed at:** SAS/SCSI drives, SAS RAID, SATA/Hybrid RAID (if paired with the PC-3000 Express System)

## 3 PC-3000 Portable III Ultimate System

All-in-one instrument for beginners, large labs, and digital forensics experts.

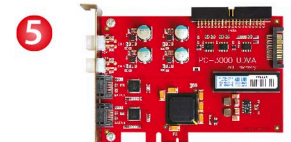

**Aimed at:** SATA/USB HDDs (from 40 GB and more), SATA/PCIe SSDs, RAID, logically damaged NAND Flash & SD/mSD cards + SAS drives (in future)

## 4 PC-3000 Mobile

A versatile approach to data recovery from Mobile devices.

**Aimed at:** eMMC 153/169, eMCP 162/186, eMCP 221, eMCP 529 memory chips; Mediatek and Qualcomm-based mobile phones.

## 5 PC-3000 UDMA SSD System

The optimal choice for data recovery start-ups or daily tasks in a data recovery facility.

**Aimed at:** SATA/PATA HDDs (all generations, 500 MB – 8 TB), SATA SSDs.

## 6 PC-3000 Flash All-in-One Package

A state-of-the-art tool for data recovery from most existing NAND Flash devices.

**Aimed at:** USB Flash drives, SD, microSD, Memory Stick (MS), xD, MMC, CF, Voice Recorder, etc.
